MEMORANDUM FOR: Richard J. Kerr
Deputy Director for Intelligence

FROM:

[REDACTED]
Acting Director, Intelligence Community Staff

SUBJECT: Managing OSI Under the INF Treaty

lick
1. Despite the short deadline, we have undertaken a thorough review (especially by our collection Committees and CCISCMO) of General Powell's paper describing U.S. Government management of OSI as envisioned in the proposed INF Treaty. Our review focused solely on high-level issues. [REDACTED]

2. The paper is excellent. It addresses the requirements for on-site inspection in a well-rounded and thoughtful manner. We support the paper's recommendations, including the appointment of a DCI All-Source Monitoring Manager, the establishment of a U.S. On-site Inspection Bureau, and the separation of this bureau from the U.S. Intelligence Community. [REDACTED]

3. As noted in paragraph 8, "Additional Considerations," areas of very special concern including the question of resource allocation are addressed. We view these concerns to be of paramount importance and in need of treatment (if not resolution) before the U.S. proceeds with implementation of the proposals in the paper. [REDACTED]

4. Please let me know if we can aid you any further in this process. (U)
